PROFESSIONAL SUMMARY

As a Computer Engineering student, I have explored different areas of software development through internships, research activities, Startup projects, and technical events. These experiences have helped me build strong foundation in Python, web development, and problem-solving while providing exposure to real-world development practices. Qualifying GATE, publishing research work, and presenting projects such have further strengthened my technical and analytical abilities. I am currently focused on expanding my knowledge of Python and machine learning, with goal of building software solutions that address practical challenges and deliver meaningful value.

TECHNICAL SKILLS

- **Languages:** Python, Java, C, C++, JavaScript
- **Web Development:** Frontend Technologies (HTML, CSS, Bootstrap, jQuery), Backend Development (Django, Flask, REST API Development, API Integration, FastAPI, MERN Stack Fundamentals)
- **Tools & Technologies:** Git, GitHub, Unity 3D, Virtual Reality Development
- **Artificial Intelligence & Machine Learning:** Machine Learning Fundamentals, Prompt Engineering, LangChain Fundamentals, LLM Applications (Gemini/OpenAI), Data Preprocessing, Pandas, NumPy, Scikit-Learn, AI-Powered Document Processing, NLP Fundamentals
- **Data Analytics:** Power BI
- **Databases:** MySQL, MongoDB, SQLite

EDUCATION

Bachelor of Computer Engineering

Gyanmanjari Innovative University, Bhavnagar

2023–2027

7.3 / 10 CGPA (Till 5 Sem)

Higher Secondary School

Gyanmanjari Higher Secondary School, Bhavnagar

2023

51.70 %

WORK EXPERIENCE

DreamDrift Designs Pvt. Ltd., Bhavnagar

Python Django Developer Intern

Jun 2025– July 2025

Worked on the development of BhojanVilla, a restaurant and resort management platform.

Responsibilities:

- Developed web application modules using Python and Django.
- Worked on frontend and backend integration.
- Implemented user authentication and booking functionalities.
- Assisted in database integration and system testing.

Project: BhojanVilla – Restaurant & Resort Management System

- **Technologies:** Python, Django, MySQL, HTML, CSS, Bootstrap, JavaScript

Features:

- User Registration and Login
- Room Booking System
- Table Reservation System
- Menu Management
- Gallery Management
- Admin Dashboard

Apex Software House, Bhavnagar
Frontend Developer & Office Management Intern

Apr 2024– Aug 2025

Worked on website development and organizational activities.

Responsibilities:

- Developed frontend interfaces for web applications.
- Improved website responsiveness and user experience.
- Assisted in office documentation and project coordination activities.

Project: ShopIt – E-Commerce Website

- **Technologies:** MySQL, HTML, CSS, Bootstrap, JavaScript

Features:

- Responsive User Interface
- Product Display Pages
- User-Friendly Navigation
- Mobile-Friendly Design

PROJECTS

BhojanVilla – Restaurant & Resort Management System

Technology: Python, Django, MySQL, HTML, CSS, Bootstrap, JavaScript

A full-stack web application developed for managing restaurant and resort operations, including bookings, customer management, and administrative activities.

DocMind AI – Intelligent Document Assistant (Ongoing)

Technology: Python, FastAPI, LangChain, Gemini API, FAISS

Developing an AI-powered document assistant capable of extracting information from PDF documents and answering user queries using Retrieval-Augmented Generation (RAG) techniques. Utilizes semantic search and vector-based retrieval to provide context-aware responses from uploaded documents.

Key Features:

- PDF Upload & Processing
- Semantic Search
- Context-Aware Question Answering
- Document Knowledge Retrieval
- AI-Powered Responses

PDF Summarizer

Technology: Python, AI/NLP Tools

Built an application that extracts content from PDF documents and generates concise summaries, helping users quickly understand lengthy documents.

Real-Time Speech-to-Text System

Technology: Python, Flask, Vosk

Developed a speech recognition application capable of converting spoken language into text in real time, focusing on transcription accuracy and usability.

NexNote

Technology: MERN Stack, Antigravity Framework

A collaborative productivity and note-management platform designed to improve organization and teamwork. Presented during CorpConnect.

Crime Vision

Technology: MERN Stack, Antigravity Framework

Role: Frontend Developer

A research-oriented platform developed for crime analysis and monitoring. Presented during TechManjari 2026 as part of a technical project showcase.

StellarSence VR – Virtual Reality Space Education Platform

Technology: Unity 3D, Virtual Reality

An immersive virtual reality platform designed to make space learning interactive and engaging through realistic experiences.

Features:

- Solar System Exploration
- Moon Roller Coaster Experience
- Interactive Educational Environment

Achievements & Presentations:

- Runner-Up at TechManjari 2026
- Presented at TechManjari 2026
- Presented at UdhyamSetu 1.0 before investors
- Presented at Code2Impact
- Presented at Pahal 1.0

RESEARCH PUBLICATION

Beyond Full Automation: A Critical Survey of RPA and Human-in-the-Loop Hybrid Workflows

Published In: International Research Journal of Modernization in Engineering Technology and Science (IRJMETS)

Volume: 7

Issue: 7

Publication Date: July 2025

Research Areas:

- Robotic Process Automation (RPA)
- Human-in-the-Loop Systems
- Hybrid Automation Frameworks
- Future Automation Trends

ACADEMIC ACHIEVEMENTS

GATE Qualified

- Successfully qualified the Graduate Aptitude Test in Engineering (GATE), demonstrating strong engineering fundamentals, analytical thinking, and problem-solving abilities.

Runner-Up – TechManjari 2026

- Awarded Runner-Up position for the StellarSence VR startup project among competing student innovations.

LEADERSHIP & ORGANIZATIONAL EXPERIENCE

Research Paper Committee Member GIMCA 2026 International Conference

Served as a member of the Research Paper Committee for an international conference organized by Gyanmanjari Innovative University.

Responsibilities:

- Assisted in managing research paper-related activities.
- Coordinated conference proceedings and academic sessions.
- Collaborated with faculty members, researchers, and participants.
- Contributed to the successful execution of conference operations.

CERTIFICATIONS

Freedom with AI Masterclass | Freedom with AI | January 2024

- Learned practical applications of artificial intelligence tools and explored how AI can enhance productivity and workflow efficiency.

C Programming Course | UFOS Authorized Training Center | February–March 2024

- Built a strong foundation in programming concepts, problem-solving techniques, control structures, functions, and data handling using C language.

Certified Lean Six Sigma AI Yellow Belt | CSSC Accredited | May 2024

- Gained knowledge of process improvement methodologies, quality management principles, and AI-assisted decision-making approaches.

Claude AI Masterclass | Skill Nation | May 2024

- Explored the capabilities of Claude AI and its applications in content creation, research, and professional productivity.

AI-Powered SEO Masterclass | Pankaj Kumar SEO | February 2026

- Learned search engine optimization fundamentals, keyword research techniques, content optimization strategies, and AI-assisted digital marketing practices.

TECHNICAL EVENTS & ACTIVITIES

TechManjari 2026 | 08–11 January 2026

Organizer: Gyanmanjari Innovative University

- Presented StellarSence VR startup project.
- Achieved Runner-Up Position.
- Presented Crime Vision research project.

UdhyaMSetu 1.0 | 22 November 2025

Organizer: Gyanmanjari Startup & Entrepreneurship Cell, GMIU

- Represented StellarSence VR before investors and entrepreneurship professionals.
- Participated in startup pitching and innovation activities.

Code2Impact | 18 July 2025

Organizer: Gyanmanjari Innovative University

- Presented StellarSence VR as an innovative startup solution.
- Participated in idea validation and innovation-focused evaluation.

Pahel 1.0 | 25 September 2025

Organizer: Gyanmanjari Innovative University

- Showcased StellarSence VR during innovation and entrepreneurship activities.

CorpConnect 1.0 | 06-07 March 2026

Organizer: Gyanmanjari Innovative University

- Presented NexNote project.
- Participated in industry interaction and project presentation activities.

HR Conclave 1.0 – AI and Agility | 18 April 2026

Organizer: Gyanmanjari Institute of Management Studies, GMIU

- Attended expert sessions on modern HR practices, AI adoption, workforce agility, and future-ready skills
